1. DESCRIPTION OF BUSINESS

Silver Spruce Resources Inc. (the “Company”) is a public company domiciled in Canada and was incorporated in Alberta on May 8, 1996 under the name First Labrador Acquisitions Inc. The Company changed its name to Silver Spruce Resources Inc. on October 22, 2004. The Company's operations consist of the exploration for precious and base minerals. The registered office of the Company is Suite 440, 1600 Bedford Highway, Bedford, Nova Scotia, B4A 1E8. The Company’s common shares are listed for trading on the TSX Venture Exchange under the symbol “SSE”, the OTCQB under the symbol “SSEBF and the Frankfurt Stock Exchange under the symbol “S6Q”.

2. BASIS OF PREPARATION AND GOING CONCERN

Statement of compliance

The condensed consolidated interim financial statements of the Company are unaudited and have been prepared in accordance with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and the interpretations of the IFRS Interpretations Committee. In preparing the interim financial statements, the same accounting principles and methods of computation have been applied as in the annual financial statements for the year ended October 31, 2022. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods have been made. The condensed interim consolidated financial statements of the Corporation were approved by the Board of Directors on March 31, 2023.

These condensed consolidated interim statements should be read in conjunction with the Company’s consolidated annual financial statements for the year ended October 31, 2022.

Basis of measurement

These consolidated financial statements have been prepared on an accrual basis and are based on historical costs. The condensed consolidated interim financial statements are presented in Canadian dollars unless otherwise stated.

Basis of presentation and going concern

The condensed consolidated interim financial statements of the Company have been prepared in accordance with IFRS on a going concern basis which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company is an exploration stage company and does not have any proven economically recoverable reserves on the Company's interest in mineral properties held for exploration and to date, the Company has not earned revenues from mining activities and does not have a firm timeline until such revenues can be reasonably expected to be realized. The Company’s interests in exploration properties are subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions, and political uncertainty.

The Company’s continued existence is dependent upon the discovery of economically recoverable reserves, the ability of the Company to raise additional financing, and future profitable production. It is not possible to predict whether financing efforts will be successful.

2. BASIS OF PREPARATION AND GOING CONCERN (continued)

Basis of presentation and going concern (continued)

Although the Company has taken steps to verify title to mineral exploration properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers, First Nations claims, non-compliance with regulatory, social and environmental requirements and may be affected by undetected defects.

While the condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, several adverse conditions, cast significant doubt on the validity of this assumption. The Company has incurred a net loss of \$221,644 during the quarter ended January 31, 2023, has an accumulated deficit of \$44,692,710 and has no source of revenue. The Company has a working capital deficit of \$164,795 as at January 31, 2023. However, subsequent to the quarter end (Note 15 (i)), on March 29, 2023, the Company closed a private placement for gross proceeds of \$1,135,507. Although the Company has been successful in raising funds in the past and during the year, there is no assurance that it will be able to successfully complete further financing. These conditions indicate the existence of material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying condensed consolidated interim financial statements. Such adjustments could be material.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements are prepared in accordance with IFRS and follow the same accounting policies and methods of their application as the most recent audited financial statements for the year ended October 31, 2022. These financial statements should be read in conjunction with those consolidated financial statements.

4. CAPITAL MANAGEMENT

The capital structure of the Company currently consists of share capital, warrant reserve and equity reserve. As at January 31, 2023, managed capital deficit was \$(148,664) (October 31, 2022 – surplus \$30,572). Subsequent to the quarter end, the Company closed a private placement for gross proceeds of \$1,135,507 (Note 15 (i)). The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition, exploration and development of mineral properties. The Company manages its capital structure in a manner that provides sufficient funding for operational activities.

The properties in which the Company currently has an interest are in the exploration and evaluation stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurances that the Company will be able to continue raising equity capital in this manner.

SILVER SPRUCE RESOURCES INC.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended January 31, 2023 and 2022

(Expressed in Canadian dollars - Unaudited)

4. CAPITAL MANAGEMENT (continued)

The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly rated financial instruments, such as cash, held with major Canadian financial institutions. The Company reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company's capital management objectives, policies and processes have remained unchanged during the quarter ended January 31, 2023 and the year ended October 31, 2022.

5. FINANCIAL RISK FACTORS

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

a) Credit risk

The Company's credit risk is primarily attributable to cash and other receivables. The Company's cash is held with highly rated financial institutions.

The Company has concluded that credit risk with regards to other receivables, except Mexican VAT receivable on which the Company has recorded an allowance, is minimal.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure as described in Note 4. The Company has no income from operations or a regular source of cash flow and relies on equity funding to support its exploration and corporate activities. Should the need for equity funding arise, there is a risk that the Company may not be successful in selling new common shares at acceptable prices.

As at January 31, 2023, the Company had a cash balance of \$86,122 (October 31, 2022 - \$221,929), receivables of \$86,494 (October 31, 2022 - \$121,425) to settle current liabilities of 358,307 (October 31, 2022 - \$325,915). Of the Company's current financial liabilities, \$307,919 (October 31, 2022 - \$298,545) have contractual maturities of less than 30 days and are subject to normal trade terms. Subsequent to the quarter end, the Company closed a private placement for gross proceeds of \$1,135,507 (Note 15 (i)).

c) Market risk

Interest rate risk

The Company has no loan payable, therefore, the Company is not subject to interest rate risk. The Company invests any cash surplus to its operational needs in investment-grade short-term deposit certificates issued by highly rated Canadian banks. The Company periodically assesses the quality of its investments and is satisfied with the credit rating of the bank.

SILVER SPRUCE RESOURCES INC.
Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended January 31, 2023 and 2022
(Expressed in Canadian dollars - Unaudited)

5. FINANCIAL RISK FACTORS (continued)

c) Market risk (continued)

Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. However, the Company has operations outside of Canada, and therefore could be at risk for currency translations. The Company's property acquisition obligation (Note 7) is denominated in United States Dollars ("US\$") and is subject to fluctuations in that currency's value relative to the Canadian dollar. The value of the obligation at January 31, 2023 is \$33,375 (US\$25,000), therefore a 10% rise or fall in the Canadian dollar against the US dollar would have resulted in a decrease (increase) of \$3,337 in the net loss.

There were no significant changes to credit risk and market risk during the quarters ended January 31, 2023 and 2022.

d) Fair value

The carrying amounts for cash, receivables, trade payable and accrued liabilities, and property acquisition obligation on the statements of financial position approximate fair value due to their short-term maturity.

6. RECEIVABLES

Receivables comprise of:

	January 31, 2023	October 31, 2022
	\$	\$
Other receivables	71,556	98,667
HST Receivable	14,938	22,758
Mexican VAT receivable	105,963	80,231
	192,457	201,656
Less: Allowance for Mexican VAT receivable	(105,963)	(80,231)
	86,494	121,425

The Mexican Government does not reimburse the VAT paid on expenses incurred. This tax receivable will be applied against future VAT payable if the Company earns revenue from mining activities in Mexico. The Company has therefore recorded an allowance against this VAT receivable, which will be reversed in the future if the Company earns taxable revenue in Mexico.

a) Pino de Plata, Mexico

On February 29, 2016, the Company signed an amended Agreement that supersedes the original purchase Agreement and enables the Company to purchase a 100% interest in the Pino de Plata property. The revised financial terms are as follows:

- Total cash payments reduced from US\$1,000,000 to US\$500,000 over two years (US\$125,000 (\$168,459) paid);
- One share issuance of 2,500,000 common shares, issued on June 15, 2016 and valued at \$0.07 per common share based on the quoted market value of the common shares on that date. One payment of \$250,000 to be paid in common shares in lieu of cash, at a share price equal to the 20-day average closing price of the Company's shares on the TSXV, subject to exchange approvals;
- A three percent (3%) gross production royalty capped at US\$4,000,000, which can be purchased for US\$1,333,333 per percentage point at any time and are reduced by the total amount of advanced royalty payments; and
- The Company is subject to advanced Royalty payments of US\$10,000 per month to commence 30 days after the acquisition is finalized, registered and documented with the proper authorities.

As a result of a delay in being able to access the property, an addendum to the purchase Agreement was made in November 2016 to suspend the terms of the Agreement until access is gained to the property. Access was granted again in June 2018 but has been revoked in June 2019 and according to the terms of the Agreement remains under force majeure. The ongoing interest in the property is subject to satisfactory resolution of the access restriction. In June 2020, the Company engaged Mexican legal counsel to engage in discussions with landowner representatives. Negotiations for a land access Agreement continue as of the current date.

7. MINERAL EXPLORATION PROPERTIES (continued)

a) Pino de Plata, Mexico (continued)

On November 7, 2019, the Option Agreement with the concession title owner was fully processed by the Registro Publico de Minería (Public Mining Registry).

The Company's minimum commitment as at January 31, 2023 has been recorded as property acquisition obligation on the statement of financial position in the amount of \$33,375 (US\$25,000) (October 31, 2022 - \$34,123 (US\$25,000)). The Company has no required minimum work expenditures in the contract during the period and is up to date with the cash and share amounts payable to the vendors with the remaining deferred payments subject to the terms of the force majeure clause in the Agreement. The Company remains current on payment of the requisite property taxes on Pino de Plata.

b) Melchett Lake, Ontario

In September 2019, the Company signed a binding letter of intent with three parties to acquire 100% of the Melchett Lake zinc-gold-silver volcanogenic massive sulphide (VMS) project, an advanced precious and base metal project in the Thunder Bay mining district, Northern Ontario, Canada.

After completing due diligence, the Company entered into a purchase Agreement on November 20, 2019 to acquire 100% of the property. As consideration, the Company will pay the vendors \$150,000 in cash and 5,000,000 common shares of the Company, spread over three years. As of January 31, 2023, the Company has paid \$100,000 to the vendors and has issued 500,000 common shares valued at \$0.04 per shares, 1,000,000 common shares valued at \$0.06 per shares, 1,500,000 common shares valued at \$0.05 per share and 2,000,000 common shares valued at \$0.015 per share to the vendors.

Given the logistical constraints due to the COVID-19 pandemic, the purchase Agreement was amended on November 20, 2020, to modify the exploration expenditures for the first two years of the Agreement as follows: Minimum work expenditures total \$1,000,000, with \$50,000 by the first anniversary, an additional \$250,000 by the second anniversary and \$700,000 prior to the third anniversary. The vendors will retain a 2% net smelter return royalty, of which 1% can be purchased by the Company for \$1,000,000 and the remaining 1% at market price. The Agreement was amended again as of October 31, 2022 to defer the November 2022 cash payment of \$50,000 and work expenditure requirements (totalling \$1,000,000) to November 20, 2023 and add an additional payment of \$50,000 (to a total of \$100,000) and issuance of 2,000,000 additional shares in November 2023. All payments are up to date in terms of cash and shares paid as of the 3rd anniversary on November 20, 2022.

7. MINERAL EXPLORATION PROPERTIES (continued)

c) El Mezquite, Mexico

On June 9, 2020, the Company signed a binding Option Agreement with Colibri Resource Corp. to acquire 50% interest in its wholly owned Mexican subsidiary Yaque Minerals S.A. de C.V. which holds the El Mesquite Gold project.

The option to acquire 50% interest was terminated in September 2022 with no further attributable costs to the Company. The Property returned to Colibri Resource Corp. prior to the scheduled payment of US\$100,000 on or before September 30, 2022 and the \$500,000 for 50% of its debenture due in October 2023, and any annual interest or property tax payments due to Colibri Resource Corp.

d) Jackie, Mexico

On November 17, 2020, the Company signed a Definitive Agreement with Colibri Resource Corp. to acquire 50% interest in the Jackie Gold Project in Sonora, Mexico.

As consideration, on December 14, 2020, the Company issued 500,000 common shares at a price of \$0.05 per share to Colibri and on January 5, 2021, paid US\$25,000. The Company issued another 500,000 common shares at a price of \$0.05 per share on November 24, 2021 and paid another US\$25,000 on November 21, 2021. All required cash and share payments are paid in full.

There is a minimum work expenditure total of US\$100,000 over two years, with a minimum of US\$50,000 within 12 months of the TSX approval. During this period, the Company will be responsible for 100% payment of the surface rights Agreements when exploration is active and 50% of the property taxes.

The Company has met the work expenditure target during fiscal 2022.

e) Diamante, Mexico

On April 27, 2021, the Company signed a Definitive Agreement with Colibri Resource Corp. and its wholly owned Mexican subsidiary (Yaque) to acquire 50% interest in the Diamante 1 and Diamante 2 Au-Ag concessions in Sonora Mexico.

As consideration, to earn its initial 25% interest in the Diamante (the Property), on May 8, 2021, the Company paid an initial cash amount of US\$75,000, directed to Minera Bimsa SA de CV's (the Vendor) US\$100,000 initial property payment whereupon the Company and Yaque each will hold a 25% interest in the Property and manage the Property as equal partners ("Partners").

The Company will be the designated operator of the Property during the earn-in period with the Vendor. The Partners will direct the exploration program via a four-person board representing each of the partners.

7. MINERAL EXPLORATION PROPERTIES (continued)

e) Diamante, Mexico (continued)

To earn its initial 50% of the Diamante project, Silver Spruce and Yaque also agree to design, permit and drill a minimum of 2,000 metres on the Property within 24 months from the Execution Date of Yaque's final Agreement with the Vendor; including any requisite exploration leading to the drill program, submit a final drilling report to meet NI 43-101 reporting guidelines and pay approved exploration costs at a ratio of Silver Spruce (75%) and Yaque (25%).

The Partners will pay to the Vendor 50% of the bi-annual property taxes and surface rights payments.

In January 2023, the Company filed its technical report with the Vendor, earned a 25% interest in Diamante 1 and 2 with Colibri Resource Corp. via Yaque Minerales and has an option remaining to increase Silver Spruce ownership to 50%.

f) Mystery, Marilyn and Till Properties, Newfoundland and Labrador

In August 2021, the Company signed a binding letter of intent with two parties to acquire 100% of the three early-stage gold exploration properties, Mystery, Till and Marilyn (the Property) located near Grand Falls, Newfoundland, Canada.

After completing due diligence, the Company entered into an option and purchase Agreement on September 7, 2021 to acquire 100% of the properties. As consideration, the Company will pay the vendors \$615,000 in cash and 10,000,000 common shares of the Company, spread over five years. The Company also has to pay a finders fee of 7% of the total amount of cash paid, and issue 7% of the common shares issued to the vendors in parallel with the payment schedule for the vendors.

Minimum work expenditures total \$1,500,000 over the five-year term of the Agreement by September 7, 2026, with \$150,000 during the first year, \$200,000 during the second year, \$250,000 during the third year, \$300,000 during the fourth year and \$600,000 during the fifth year. The vendors will retain a 2% net smelter return royalty, of which 1% can be purchased by the Company for \$2,000,000 and the remaining 1% at market price.

As at January 31, 2023, the Company has paid the vendors \$40,000 cash and issued 1,000,000 common shares valued at \$0.04 per shares and 1,000,000 common shares valued at \$0.02 per share to the vendors. The Company also issued 70,000 common shares valued \$0.04 per shares and 70,000 common shares valued at \$0.025 per share and paid \$2,800 as finders fees.

The current Property expenditures fully cover the first two years of the payments (to the 2nd anniversary September 23) required (\$350,000) for exploration in the Agreement. The Agreement was amended to accept the cash portion (\$50,000) of the 1st anniversary September 2022 payment upon pending return of the security deposits, placed on the Properties in 2021, to allow the Company adequate time to carry out the permitted exploration programs.
